

Overnight & SameDay

We offer an overnight and same-day service, which allows us to deliver your shipments overnight or even on the same day throughout Germany. We also reliably deliver urgent shipments to destinations in Europe and beyond in the shortest possible time.

Shipping Units & Packaging

A shipment may consist of one or more shipping units. Please pack them appropriately and address them clearly. If a shipment consists of multiple shipping units, we recommend including a packing slip that explicitly lists the individual shipping units to avoid misunderstandings.

Fahrwerk Kurier*innenkollektiv GmbH will not accept liability for damage resulting from the lack of suitable shipping packaging.

An index-based fuel surcharge is applied to all overnight, same-day, and express shipments (domestic and international), which is based on the current prices of diesel and kerosene. You can find the current rates on our [Website](#).

Other surcharges

For pickups and deliveries in Berlin, surcharges for outskirt areas, early/late hours, weekends, and holidays apply in accordance with our city rides PLV.

Calculation of Volume Weight (according to IATA)

The calculation is based on either the total gross weight or the volumetric weight—whichever is greater: $L \times W \times H$ (in cm) ÷ 6,000 = volumetric weight (in kg)
